Exosuit trades up from the conventional spandex of The Atom to a more armored, realistic version of the hero's outfit, fitting well with Ray Palmer's access to armored tech and tons of cash. The Atom's new costume will be seen in action for the first time in the upcoming 15th episode of the season, "Nanda Parbat." He'll go on to take part in the 18th episode of The Flash, "All-Star Team-Up."
