Mamata: form joint business council to end disputes

STAR BUSINESS REPORT
West Bengal Chief Minister Mamata Banerjee yesterday proposed forming a joint business council for quick resolution of disputes in bilateral trade and investment.
The proposal comes at a time when the business community in

Bangladesh points at tariff, non-tariff and para-tariff barriers as hurdles to increasing exports to India.
India had withdrawn all kinds of duties on the import of Bangladeshi products, except 25 alcoholic and drug items, in November 2012.
"Create a joint business council soon, so that we can solve the prob-

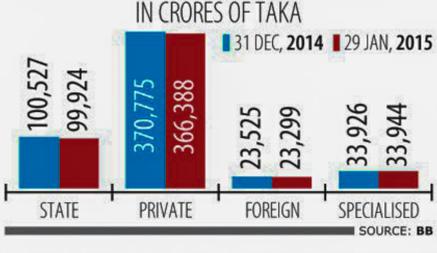

lems immediately. The council will identify the problems. If I face any problem, you will solve it and if you face any problem, I will solve it immediately to increase bilateral trade," Mamata said, addressing a meeting as the chief guest at Sonargaon Hotel in Dhaka.

Bank credit falls for unrest

REJAUUL KARIM BYRON
Bank loans decreased 0.98 percent or Tk 5,197 crore in January compared to December mainly due to political unrest.
Banks' total outstanding amount stood at Tk 523,558 crore on January 29, which was Tk 528,755 crore on December 31, according to central bank statistics.
Even if no new credit was given out, the interest imposed on the outstanding amount would have increased the loan figure for January. But that was not the case.
With investment remaining stagnant for political uncertainties, the year-on-year credit growth decreased 0.24 percentage points in January from December, to stand at 13.75 percent.
Many factors like the nonstop blockade, violence and

CREDIT SITUATION IN BANKS

seasonal effects are responsible for the fall in credit, bank officials said.
Investors are unwilling to make fresh investment in the prevailing situation, Anis A Khan, managing director of Mutual Trust Bank, told The Daily Star.
Rather than becoming defaulters, investors prefer not taking any new loans, he said.
Khondkar Ibrahim Khaled, former deputy governor of Bangladesh Bank, said the anarchic situation in the country has led to a sluggish trend in trade and commerce. It is natural that the situation would have an adverse impact on banks' credit situation, he added.
The outstanding amount may also drop if banks' loan realisation goes up and no new loans are given, both Khaled and Khan said.
