

POP UP

Noborupa's summer collection

POHELA Boishakh calls for a change of style for all Bangladeshi people. With that in mind, Noborupa's new collection is designed keeping these two things in mind. The designs are primarily based on a red and white theme. Keeping with tradition, the collection encompasses materials from taat, cotton, linen, Georgette, chiffon, etc. Men's fatua, panjabis, and women's tunics, sarees and salwar kameez's are available along with children's clothing.
