

# Antonio Banderas hasn't seen 'Fifty Shades' yet

Antonio Banderas has revealed that he still hasn't seen daughter Dakota Johnson in the 'Fifty Shades of Grey.' Speaking on ITV's Loose Women, the 54-year-old actor said that when Johnson was four years old, he changed her nappies and so it'll be very weird to go and see the movie, adding if it was on television one day, he will pass, the Mirror reported. Banderas added that he didn't see the movie but he was in Los Angeles for some of the pre-Oscars parties and stuff and some directors, important people and a producer, they approached him and said the movie is good but his step-daughter is fabulous. He noted that that makes him very proud, adding that he knows that she wants it and she's got it, she's got the skills. She knows Hollywood from her grandmother Tippi Hedren so she knows how to manage herself in the universe.
