## HOME N DÉCOR The all-in-one home solution

**S**ETTING up the details in your perfect home is often an excruciating undertaking. From finding that charming bowl of potpourri to identifying the perfect match between the wall paint, rugs, furniture and accessories for your home, the sheer magnitude of setting up a new home, or trying to inject your desired changes into the old one can be extremely daunting. It only aggravates when you have to hop from one store to the other trying to achieve the desired look of your home by finding the right furniture or accessories.

Building Technology and Ideas Ltd., one of the pioneering real estate companies in Bangladesh, identified this issue and as home builders, perhaps gauged the importance of having a store where every necessary item for furnishing your home could be found. The result of this understanding led to the establishment of Home n Décor - the largest first-of-its-kind organised retail home shopping experience in Bangladesh.

Step through the wide inviting entrance and the first level greets you with an incredible array of home goods and accessories, kitchenware, dinnerware, interior décor products, and home appliances and much more. From the simplest kitchen mitts to microwave ovens, from collections of wooden spatula to gorgeous vases and show pieces, from non-stick frying pans to a variety of rugs, paintings and lamps, there has been no stone left unturned to ensure that the customers truly can find anything and everything they require for their home.

Besides the astonishing range of home accessories, a wide and diverse range of quality furniture awaits you on the second and third level. The second level is reserved exclusively for the store's handpicked imported furniture aptly titled 'Cloud 9'. Crafted for opulent living, Cloud 9 is sure to be a favourite among connoisseurs of quality furniture.

Level 3 hosts a wide variety of local furniture, including Home n Décor's very own 'Innov8' and 'Select' furniture collections, along with numerous local brands. You will find a collection of outdoor furniture, Rattan furniture, children's furniture, sofa cum beds, recliners and all the regular pieces needed to set up a home -- be it a small apartment or a large mansion.

Home n Décor also holds exhibitions. For example, February saw a photography exhibition titled 'The Colours of Life'. The management looks forward to hosting further exhibitions, be it for art, photography, clothes or books.

The centrally air conditioned Home n Décor has striking interiors, well trained personnel and adequate parking space. The astuteness in providing a leisurely and serene atmosphere throughout the store is to be lauded, especially considering the staggering 65,000 square feet of space the store boasts.

Located on Progoti Sharani, (opposite Suvastu Shopping Centre) at bti Premier Plaza, Home n Décor operates from Thursday to Tuesday, between 11am to 8pm. It's a thoughtful and visionary undertaking, and one that is sure to simplify the hassle required to set up the perfect home.
