Dove
hair therapy

The nourishment
your damaged hair's
been missing.*

When your hair shows signs of damage it means it needs nourishment. Soon you start missing the strength and smoothness. Dove with 1/4 moisture milk and Keratin Actives nourishes your hair at the cellular level and makes it resilient to damage, returning the strength and smoothness. So give your hair Dove Intense Repair, bring back what it's been missing and fall in love with it all over again.

*Based on lab test with regular use of Dove system.
