

## Bespoke couture at ARMADIO

Fashion's ongoing love affair with floral prints continues through Eid this year. Armadio transforms these blooms in soft pastel colours as well as vibrant hues in snazzy jumpsuits, summery dresses and flowy tops. For those less willing to go for full blooms, Armadio offers gowns and cocktail dresses in solids and bold patterns using lightweight fabric. For the men's collection, Armadio takes on a linear approach with the shirts combining stylish silhouettes with contemporary tailoring and design details. The fabrics are predominantly cotton and linens in solids, stripes and gingham. These shirts come with different kinds of metal buttons, patch sleeves and details on plackets and collars.
