

Eclectic blue dining

The best dining rooms are not only comfortable and beautiful, but also adaptable.

They are a welcoming zone for casual lunches to formal dinner parties and every type of special gathering in between. Hosting a memorable gathering should be as enjoyable as attending the event. Take plea-

Eclecticism is perhaps the most enduring and endearing aspect of vintage décor styles. Anything goes; there are no rules, no rhyme or reason behind the choice of decoration other than an instinctive affiliation with each piece on the part of the owner.

Blue has a quiet, peaceful spirit and a thoughtful and dignified quality that is invaluable in a noisy, busy world.

Blue conveys an essence of the deeper realms of the spirit and can bring inspiration and dream-like qualities to the home. In various cultures blue is seen as providing a link with the heavens and the spirit, giving it an aura of protection. It is a colour that gives out a message of trust, friendship, and loyalty.

As a designer I am really fond of blue. It is not easy to turn your furniture to different colours only for events and special occasions.

Furnishing is the easiest way to change your ambience. Accessories also play a great role in terms of makeovers. But be careful in selecting items for your dining room. Sometimes too many decor objects around your dining table creates clutter. But if you carefully create a colour theme for your special occasion, it's creates a stunning look.
