BREATHE EASY

This week, Star Lifestyle presents Maheen Khan's predictions for the coming festive days. With the weather humid and conditions becoming unbearable, with rain and sun teaming up to keep you on your toes, too much glamour is a recipe for a disaster. Fashion Expert Maheen Khan picks her choice of the fabrics for Eid and after and explains how this season is all about breathable fabrics. Light, playful and comfortable hues will be making a big comeback this Eid and rightfully so. What's the point of all the pizzazz if it just results in heavy sweating and make up wearing off?

Go for the playful this season and remember to keep it light. Light blues, baby pinks, and easy yellow are the choice colours this time around.

Check out Star Lifestyle's album to get a better idea of what we are droning on about! Keep it trendy! Flip to pg 9 to read Maheen Khan's personal take!
