# KEEP YOUR COOL

Infuse the chic with the retro this Eid. Bring the swinging sixties back, when hippies reigned supreme and everyone aspired to be the hepcat as opposed to the mundane. And with good reason too! Why be a boring all fuddy-duddy? Get your bell bottoms, fly tops and funk on and sport the crème of haute couture with a difference. Let your skin breathe while you breathe lighter too. Do your hair without a fuss, stick a pin if needed or let it flow. Be the breeze, be the wind, move with ease, like a fashion fiend!
