Pointing to the killing of a Japanese citizen in Rangpur, the party also lambasted the government for its "failure" to ensure foreigners' security in Bangladesh and said such incidents were taking place due to "the absence of good governance and law and order". "With grave concerns we want to say that the ruling party has turned the country into a safe haven for criminals. People are insecure both at their home and outside. ### Atomic scientists slam 8th payscale

Say they will be financially deprived without selection grade, timescale

**STAFF CORRESPONDENT**  
Abolition of financial benefits known as "selection grade" and "timescale" in the newly approved eighth payscale would financially deprive the country's scientist community, Bangladesh Atomic Energy Scientists Association said in a press release. The association, a professional body of over 500 nuclear scientists serving Bangladesh Atomic Energy Commission, demanded that the government lift the commission's chairman to "super grade-1" and that of members to "super grade-2" in the new pay structure. The government last month approved the new payscale for its employees with a highest basic pay of Tk 78,000 and a minimum of Tk 8,250 across 20 grades implying a hike ranging from 91 to 101 percent of the current pay. The new scale also provided for two "super grades" -- the first with Tk 86,000 and the second Tk 82,000 as basic pay, said Dr ASM Saifullah, general secretary of the association. But abolishing selection grade and timescale
