

STYLE ICON

# MITHILA

Our pick for the Showbiz Style Icon this week is the beautiful and talented Mithila. From the time we first heard her voice singing alongside Tahsan in the hit Brittalpona, we knew this lady has potential. She is a singer as well as an actor, but her true passion is development work and she wishes to work more to support the underprivileged in the future. The few media related projects that she does take on, she always manages to dazzle all with her beauty and her sense of style.
