

INTERVIEW

Cats Eye's winter ensemble

Winter in Dhaka is a very short chapter. We actually face the cold - real winter, that is - just for a few weeks, or may be up to a month. No matter how short the duration is, we never fail to relish it by dressing up.

Indeed, winter is a season dedicated to fashion, giving men and women ample opportunity to flaunt their style.

That being a constant, trends change every year. Fashion gurus will tell you, last winter was all about bright, eccentric and absurd colours like electric blue and mustard. This year, on the other hand, it is more about earthy tones.

"Trends come in full circle," Rummaella Siddiqui, director/designer, Cats Eye, said when pointing out how earthy colours are in vogue this year. "It starts from somewhere and then it often eventually returns to that point and then it continues its journey again."

For this season Cats Eye has an impressive collection of jackets, most of which are cotton-based. "Owing to the fact that winter in our country does not come with extreme conditions - like in many other countries - the jackets are not very heavy," informed Sadiq Quddus, director/designer.

Their jackets-section can be torn

into two sub-segments. There are the longer ones and then there are the shorter ones, with the latter being slim-fit and relatively more on the funky side (with different kinds of buttons, multiple zippers, etc.).

Sweaters are a popular winter wear, and Cats Eye has a wide variety of them, from normal ones to the trendy, and from those with earthy tones and as well as those in bright colours.

Hoodies are not just a trendy wear, but a saviour in the cold. Check out Cats Eye's hoodies, which have funny sayings and graphics on them. It also has a collection of hoody-shirts.

Cats Eye has recently introduced a line of smart-casual shirts. These trendy shirts, made of cotton, come in prints, checks, stripes, et al. "Prints are very in now," Quddus said.

The fashion brand also has a fabulous collection of linen suits - perfect to wear those to afternoon parties.

Winter marks the wedding season and Cats Eye can help you with that too. To give just one example how, the outlets boast different accessories

like bags and shoes. From the bridesmaids to the bride herself, Cats Eye will not let anyone down.

The company also has a children's line whilst Monsoon Rain, a brand targeted towards executives, is its sister concern.

Cats Eye focuses on sophistication. "If you ask what fashion is to me, I would say that sophistication is the most fashionable thing a man or a woman can pull off. I try to provide my customers with sophisticated clothes, some of which may be very trendy and funky, but all throughout, sophistication is the main thing we want in all our clothes," Siddiqui says.

From blazers to ponchos, Cats Eye's winter wardrobe is a must tryout.

Cats Eye has 17 outlets in Dhaka, 3 in Chittagong, 1 in Bogra, 1 in Cox's Bazaar, 1 in Sylhet and 1 in Khulna. You can also buy from their online store: catseye.com.bd.

Winter has arrived. And it will go away in no time! So hurry up and get check out Cats Eye's winter ensemble.

CHECK IT OUT

New Years at Radisson Blu Chittagong Bay View

Treat yourself this New Year's Eve by attending a lavish party with a live band, a fashion show, a lucky draw and a cocktail dinner. You can also dance with the DJ mixes all night long at the Radisson's New Year's Countdown!

The event is set to take place at the Mohona Ballroom from 8pm, on 31st December. Tickets are priced at Tk 3000 per person and Tk 5000 for couples.

If parties are not your style, you can enjoy an exclusive four-course, plated fine dining experience under the skyline at Level 20. The courses are Lobster Salad, Consommé with Chicken Tortellini and Mushroom, Duck Breast a l'orange on a bed of Shitake Mushroom or Pan-Fried Norwegian Fjord Salmon and Chocolate Fondant with Raspberry

Sherbet, all available for Tk5500 only.

Radisson Blu is also unveiling a New Year's Eve room package at Tk 7000+ for the night with a breakfast for two, following a night of dancing and dining.

For reservations please call +88 031 619800 or E-mail: reservation.ctg@radisson.com

From the very beginning it was our goal to establish a space age technology based Skin and Aesthetic care service in the country. 12 years back Laser based treatment was relatively new even in western world. We started with **FDA approved latest laser machines.**

Some of our Consultants received training on laser technology from U.K. & Singapore. Before this technology came to Bangladesh, women with excessive hair in face, scar in face & body, birthmarks in face & many other type of socially disgraceful defects could not be treated properly. Since we started operation **we have treated about 200,000 patients with different Skin & Aesthetic problems** in last 11 years. It has been a life changing experience for many of our clients.

Over the years we were the first to introduce other modern treatment like Non-surgical body shaping, Anti-ageing non-surgical procedures & many others. So far we have tried our best to deliver quality **service with CE & FDA approved instruments & highly trained manpower.**
