

## HIGH TIME TO HIT THE BEACH

**T**HE advent of winter heralds the peak of holiday season in Cox's Bazar, perhaps the most popular holiday destination for the Bangladeshis. There seems to be something for everybody on the longest sea beach of the world. Some find it fun collecting seashells while others would rather go surfing, jet skiing, or on a ride on the quad bikes. Some want to have a dip in the water while others want a horse ride along the beach or just sit on one of those beach chairs for rent. The beach is crowded this time of the year since it caters to everyone from children, whose school exams just ended, to senior citizens.
