President
PEOPLE'S REPUBLIC OF BANGLADESH
DHAKA
30 Poush 1422
13 January 2016

I am glad to know that Daffodil International University is going to hold its 5th Convocation on 13 January 2016. On this happy occasion, I extend my heartfelt felicitation to all the graduating students, faculty members, guardians and university authority and appreciate their collective endeavour to materialize the hopes and aspirations of the students.

Education is not mere accumulation of facts; it is the foundation of life itself. Education is knowledge imbued with wisdom and ethics. It develops the personality of students, moulds their character and grows mental skills to help them in coping with problems and challenges of the modern world. The responsibility of universities, both public and private, is primarily characterized as teaching, research, and innovative thinking to develop students' capacity. Research and innovation, as we know, are the key elements in pursuing new knowledge which play a vital role in meeting the demand of the time. I, therefore, strongly believe that our universities will concentrate their efforts on research and innovative activities along with routine work.

The government of Bangladesh is committed to ensuring quality education and research as well as establishing knowledge based society. The function of education is to teach one to think thoroughly and act vigorously. Universities, both public and private, should put their utmost endeavour in turning out capable and competent graduates by providing state of the art education. I hope that the graduates who are passing out today would be able to face the challenges confidently and contribute significantly to the development of the society.

I wish the 5th convocation of Daffodil International University a grand success. Khoda Hafez. May Bangladesh Live Forever.

Government of the People's
Republic of Bangladesh

I am pleased to know that the 5th Convocation Ceremony of Daffodil International University will be held on 13 January 2016. The convocation of a university is a grand and memorable occasion for the graduating students who have achieved the degree through their perseverance and dedication towards studies. I would like to extend my heartfelt appreciation to the passing-out students, their parents, teachers and the authorities of the university.

Education is the most powerful tool which can change the world. The present government stresses the highest priority on the world standard education that can help develop skilled human resources required for the rapid upliftment of the country. I hope Daffodil International University would continue its relentless efforts to shape the students to take the challenges of 21st Century.

I wish success of the 5th Convocation of Daffodil International University. Joy Bangla, Joy Bongobondhu.

Convocation Speaker
His Royal Highness
The Crown Prince Of Perlis
Malaysia

I am very happy to see that Daffodil International University is holding its fifth convocation on 13th of January 2016.

Convocation is a solemn and purposeful landmark event in the life of graduating students. One could be worthy for this event by investing much of talent, time, money, and, most important of all, hard work. And, for a university, convocation is its soul; without it the university loses its moorings. Its tradition should, therefore, be held in high esteem in all quarters, high and low and preserved with utmost care and concern.

On this special day, the graduates should remember that this graduation will enable them to shift their learning from the classroom to the continuous search for truth, knowledge, and values that will bring richness to their lives and careers. I believe that they are competent enough to serve the nation by upholding the prestige they received and with the knowledge and good sense which have been ingrained during their stay at this university.

I congratulate the graduates and their families. I wish the fifth Convocation of Daffodil International University a success.

I am happy to know that Daffodil International University is going to hold its 5th Convocation on 13 January 2016. On this occasion, I congratulate the graduating students and extend my heartfelt felicitations to teachers, guardians and authority of the university.

The government is working relentlessly to improve the socio-economic condition of the country by putting emphasis on education and research. Private universities have become an integral part of government effort to build a knowledge-based society and Digital Bangladesh.

I hope the outgoing graduates of this university, with their knowledge and patriotism, will play an important role in building a golden Bangladesh as envisioned by the Greatest Bangalee of all time, Father of the Nation, Bangabandhu Sheikh Mujibur Rahman.

I wish the 5th convocation of Daffodil International University a success. Joy Bangla, Joy Bongobondhu May Bangladesh Live Forever.

It gives me an immense pleasure to know that Daffodil International University is going to hold its 5th Convocation on 13 January 2016. On this auspicious occasion, I would like to extend my heartfelt congratulations and felicitations to all the graduating students, their proud parents, the faculty members and the university administration.

Quality education at tertiary level remains a question of big concern for decades. Quality education in higher educational institutions is the most effective way for socio-economic development of a nation. Apart from some renowned public universities, the endeavors of some private universities in improving the quality of higher education and develop world-class human resources are appreciable. It is, indeed, encouraging that Daffodil International University has been trying to contribute positively to improve the quality of higher education in our country with special emphasis on ICT.

I wish the 5th Convocation of the university a success.

Chairman
Board of Trustees
Daffodil International University

It is a matter of pleasure for me that the 5th Convocation of Daffodil International University is going to be held on 13th January 2016. My heart is filled up with joy as we are going to erect yet another milestone on our road to success.

We started our journey in 2002 with the noble vision of not only providing quality education to many thousands of young men and women of our country, but also to establish themselves as professionals in their respective fields of work. During their study at DIU, we have been able to successfully expose our students to various branches of knowledge, e.g. business, science, engineering, IT management, etc. In order to obtain venture capital and promote entrepreneurship among students, we have established a business incubator and linked our students with such activities as business startup, social business club, startup market and jobsbd.com - all with a view to making their learning life-oriented and practical.

We called ourselves an 'international' university at its inception. We aspired to become a world-class university. Now our dream is coming true as foreign students from the continents of Asia, Africa, Europe and North America have already graduated from this university so far. This has been possible because of dedication and determined efforts for excellence by academicians and administration. At present we have collaboration with more than 200 renowned universities of the world.

May Allah be our guide in all our efforts!

Vice Chancellor
Daffodil International University

A convocation is a day of joy, a day to derive satisfaction from achievement, as it is a day that recognizes the efforts of the student to become a graduate. As we move into the 5th Convocation of Daffodil International University, 3683 graduates will be presented for a degree of which 2898 will be awarded Bachelors degree and 785 Masters degree.

I am happy to be part of the ceremony that recognizes the achievements of the students. While congratulating the graduates, I would also like to congratulate the teachers and administration of Daffodil International University for supporting each graduate on their way to achieving their degrees.

I would also like to thank our distinguished international and local guests for participating in the ceremonies and encouraging the students. In particular, I would like to thank His Royal Highness The Crown Prince & Honorable Chancellor, UniMAP, who has come all the way from Malaysia and also to thank Honorable Vice Chancellor, UniMAP, Malaysia. I would also like to thank Honorable Mariani, SE, M.Kes, Rector who has come from Universitas Ubudiyah Indonesia, to participate. Our heartfelt gratitude also goes to the Honorable Education Minister Mr. Nurul Islam Nahid, MP for gracing the occasion as the Chairman on behalf of the Chancellor.

I would like to join the graduates in thanking the Creator for granting success and giving us the opportunity to celebrate this day with all the fanfare and pageantry.
