

PLANTINGS IN TRAY

MINIATURE trees and plants made by bonsai artists grab the spotlight at the Women's Voluntary Association auditorium a few months ago awing visitors. Bangladesh Bonsai Society, which began its journey in 1999, has been holding the yearly exhibition of the work of bonsai artists to promote the art in Bangladesh. From palm trees to banyan, the exhibition had them all. Bonsai is the Japanese art form using miniature trees grown in containers. It originated from the Chinese practice of penjing.
