

# ANWAR ISPAT

Introducing Anwar Ispat, pioneer in technology for TMT process in line. Its renowned rolling technology produces uniform re-bars, chemically and mechanically tested by spectrometer, laboratory and UTM. The latest Italian technology customizes lengths and bends with excellent bendability, corrosion resistance and producing re-bars that withstand earthquakes for standard periods. Product delivery within 24 hours in Dhaka.

## BUILDING A PROSPEROUS BANGLADESH

Famous for its international standard and setting time, Anwar Cement ensures only the finest quality cement for structures close to your heart. Using the latest European Technology, classifier and PLC driven close circuit technology, we use the best raw materials imported from Japan, Thailand, Vietnam and India to build not only houses and structures, but also homes and monuments. Once we promise, we fulfill.
