Message

I would like to take this opportunity to congratulate our new graduates on this auspicious day. Graduation is a celebration of the culmination of a period of study and the attaining of a degree and recognition but, at the same time, also the beginning of an exciting new phase of your relationship with the University as an alumnus.

Our students will hopefully cherish their time spent on the campus with great affection. The University also endeavors to ensure that the tie with its students will remain strong as alumni.

It is often only after graduation that students realize the importance of the stature and reputation of a university-their alma mater-and the value that these add to their experience in their career. A university's stature and reputation determine the value, reputation and currency of the university's degrees in the world of work and beyond.

Our graduates are our important ambassadors and real friends of the University, and they can make important contributions to the University in myriad areas.

I wish you every success in your life and career and hope that you will keep in touch with us and support our development in years to come. Southeast University is proud of you, and you can rightly be proud of your University.
