

# LOOKING BACK AT SOME OF THE BEST!

Showbiz picks for the best in Television, Film and Music

SHOWBIZ DESK

*In light of the theme of this week's issue, we at Star Showbiz decided to recognize some of the best in show business. While many have been included in the list, there are those who we could not accommodate. This list only signifies a small portion of our vast pool of talent of established artists currently in the industry, so the Showbiz Team heartily apologizes in advance to the deserving artists whose names have not been included in the list. We have also intentionally left out the legends that are no longer with us. However, we do not mean any disrespect to their immeasurable contributions in their respective fields. The list has been made in alphabetical order and does not signify ranking of any manner.*
