AGE OF SATURN — OMAR CHOWDHURY AND DR SHAHIDUL ZAMAN

Date: February 9 - February 18
Venue: Daily Star-Bengal Arts Precinct, Farmgate, Dhaka
Bengal Foundation is very pleased to both support and present Age of Saturn, the first solo exhibition in Bangladesh by Australian-Bangladeshi artist Omar Chowdhury. Created in close collaboration with the political and economic historian Dr Shahidul Zaman, the show explores important questions of how one can experience, or re-experience history and one's own past.

Constructed through several years of dialogue and research, Chowdhury and Zaman deploy autobiography, narrative, and concept to create an ambitious and intricate survey of key moments and controversies in the history of Bengal. Working in a diverse range of media including film, text, sculpture, photography, electronics, installation, performance and action the artist and historian present a rich, alternative language of inquiry into how the past creates the present and the present can create the past.
