

DEADPOOL: SHENANIGANS FOR ALL

To say that fans were left enraged with the silly portrayal of Deadpool in the first Wolverine movie would be putting it lightly. How can you have the Merc With The Mouth when his mouth is sewn shut? Thankfully, the idea of casting Ryan

Reynolds as Deadpool was a good one and since he is a massive Deadpool fan boy himself, he had taken it upon himself to make sure the image of his hero is restored to its glory. The new film, starring Reynolds as the titular character, deals

with his own origin story. The viral marketing and leaks and trailers that have been released has drummed up so much interest, that it has become one of the most anticipated films for this year, alongside the Marvel films.

The film was released yesterday, February 12th, to wide critical acclaim from fans all over. And now, it's only a matter of time before it slashes its way to theatres here, so ladies and gentlemen, start pre-booking those tickets now.
