

RELEASING ON MARCH 11

MONSTERS
COME
IN
MANY
FORMS

THE BROTHERS GRIMSBY BUFF AND BUFFOON

Sacha Baron Cohen is back with yet another dim-witted character creation, which he seems to write and perform so well. After the huge success of the 2006 movie Borat, and the less successful films, Bruno and The Dictator, Cohen now stars in The Brothers Grimsby as a football (soccer) hooligan from the North of England who is trying to find his brother.

Cohen plays Nobby, while Mark Strong plays his brother, Sebastian. When Sebastian is adopted from an orphanage, the two brothers are parted. Now all grown up, Nobby tracks Sebastian down, only to find they both took wildly different paths in life. The U.S. trailer for The Brothers Grimsby has just dropped online.

Nobby is a proud Northerner, father to eleven children and more focused on drinking, watching football and impregnating his girlfriend (Rebel Wilson) than climbing any

career ladder. Meanwhile Sebastian is one of the world's most deadly assassins, working as an MI6 agent. When Nobby tracks his brother down, he unwittingly puts Sebastian in danger, and the two end up on the run.

In addition to Cohen and Strong, The Brothers Grimsby has a strong supporting cast, including the aforementioned Rebel Wilson (Pitch Perfect), Isla Fisher, Penelope Cruz, Annabelle Wallis, Ian McShane, and Gabourey Sidibe. The movie is written by Cohen with Phil Johnston (Wreck-It-Ralph) and Peter Baynham (Borat, Bruno). Louis Leterrier (The Transporter, Now You See Me) directs.

If you've loved Cohen's previous work then you might well love this too, and that's great. It could also be that the action scenes lift this film sufficiently to make it passable, and that's great too – but based on this trailer, it looks like The Brothers Grimsby really might be grim after all.

10 CLOVERFIELD LANE NOT CLOVERFIELD 2!

Terror can come from anywhere. Sometimes it's a giant monster wreaking havoc across a major city; however, other times the terror can come from much smaller, more intimate places. That's the type of monster J.J. Abrams' Cloverfield franchise aims to tackle next.

Changing up the formula from last time out, 10 Cloverfield Lane eschews the found footage trappings for a more straightforward narrative approach. Instead of sprawling through the streets of New York City, the action here looks fairly contained, primarily only involves three

actors and one setting. Mary Elizabeth Winstead plays Michelle, who wakes up after a car crash in an underground bunker. The survivalist owner of said bunker, John Goodman's Howard Stambler, says that the world outside has been destroyed by, well, by something mysterious, and refuses to let her leave. There's obviously something more going on, and Michelle has to figure out where the truth lies.

While he swears that this is not a direct sequel, he does admit that this is tied to the franchise. Only time will tell.
