FIND FIVE DIFFERENCES BETWEEN THE TWO PICTURES FROM "RIDE ALONG 2"

An action film told from a first person perspective: You remember nothing, mainly because you've just been brought back from the dead by your wife (Haley Bennett). She tells you that your name is Henry. Five minutes later, you are being shot at, your wife has been kidnapped,

and you should probably go get her back. Who's got her? His name's Akan; he's a powerful warlord with an army of mercenaries, and a plan for world domination. You're also in the unfamiliar city of Moscow, and everyone wants you dead. Everyone except for a mysterious British

fellow called Jimmy. He may be on your side, but you aren't sure. If you can survive the insanity, and solve the mystery, you might just discover your purpose and the truth behind your identity. Good luck, Henry. You will definitely need it.
Billed as the first-ever action movie

filmed entirely from the hero's first-person viewpoint, Hardcore blasts along like a supercharged computer-game. Online buzz is already healthy, and should translate into solid commercial prospects April 8, 2016 onwards, when it's due to hit the big screen.
