

CHECK IT OUT

# Date-Dos done right

What you wear on your date night, especially if it's a special occasion, is of utmost importance. You go to great lengths to ensure that your outfit is, as they say, on point. And it's not just your outfit either; your hair has to be perfect, your jewellery must coordinate with what you're wearing, and you must absolutely wear the right shoes as well. From head to toe, you want to look flawless, to give yourself that confidence boost but also to make your date's jaw drop.

Date nights are special because they're a chance to forget about the stress and hassle of day to day life for just one night. You get to dress up and look as glamorous as you want and it's like spoiling yourself, in a way. Ladies, you can pick your favourite Western outfit, be it a long flowing maxi dress or a cute top with leggings, or you can even go with a traditional attire and wear that fancy new kameez or kurta with a pair of stilettos and some eye-catching jewellery. Wearing heels might give that much desired sassy look. A trendy branded wrist watch paired with a simple feminine necklace or classic earring would do justice to your bold outfit. Skip the fussy hairstyle and go for natural make up.

Men can opt for a smart semi-formal

look by adding a blazer to their outfit, although the classic tucked in shirt is also a good option, and you can even play it down and be more casual with a nice polo shirt and trousers. Light colours and simple stripes or solid black/navy blue can be options for shirts. If you are wearing a blazer wear a pocket square- it dramatically sharpens the look! A polo-shirt with a trendy pair of pants is the safest choice for you though.

Whenever possible be bold with colours- red, royal blue or fuchsia! Yes, you can also always go for black to resemble utter elegance. Black is way more suitable for an open air lounge or a traditional dark restaurant. But white can also offer you a simple yet confident appearance.

Top it all off with the right cologne and perfume and you are almost good to go. There are just a last details that you ought to remember; accessories!

Accessories are important, be it an elegant wristwatch, a shiny new clutch, and even a sleek new phone to match your outfit – the new Samsung Galaxy A 2016 edition is as glamorous as it gets and will pair wonderfully with whatever you choose to wear. This smartphone is definitely a smart choice!

Sunehrah Binte Kamal presents the Samsung Galaxy A5 2016 Edition while Nibir Adnan Nahid shows off a Samsung Galaxy A7 2016 Edition, both attired in proper date night outfits.
