The THREE STOOGES®

The Three Stooges is an American comedy act of the mid-20th century. The show was a vaudeville act with three main characters running the show: Moe, Larry and Curly. Although there have been many changes in their line-up, The Three Stooges is widely popular for the aforementioned characters. They have starred in many movies in different line-ups and various cartoon adaptations have also been made.

The three good-hearted fools have a knack for messing up the simplest of tasks and this is where the show draws its humour. A typical Three Stooges episode consist of Larry being slapped by Moe, uncountable eye pokes, head bumps and everlasting pie fights. The Stooges were masters of showcasing extremely physical slapstick comedy. The group's dialogues were also highly quotable and a lot of their lines have become popular

catchphrases. From Moe's "Why I oughta!" to Curly's "Nyuk, Nyuk, Nyuk!" and Larry's "I'm sorry Moe, it was an accident", these catchwords are timeless. Their popularity clearly shows when an urban term has been coined based on them, "Three Stooges Syndrome" by The Simpsons.

Their behaviours and availability to the public have allowed them to age far better than their contemporaries. With

each character displaying their distinctive comic style the show is one of the very few classic shows to this date that have been able to keep itself afloat among the new generation. The Three Stooges have been cranking up millions with their classic acts for over 86 years now, and for those who have not had the luck of witnessing this masterpiece, it is time to enjoy the classic vaudevilles!

THE LEGEND OF TARZAN

The Legend of Tarzan stars Alexander Skarsgård as the legendary character created by Edgar Rice Burroughs. It has been many years since Tarzan left the jungles of Africa behind for a refurbished life as John Clayton III, Lord Greystoke, with his beloved wife, Jane. He has now been invited back to the Congo to attend as a trade representative of Parliament, ignorant that he is a hostage in a fatal conjunction of greed and vengeance, instigated by the Belgian, Captain Leon Rom. Interestingly, those behind the lethal plot are totally unaware of what they are about to unleash.

The Legend of Tarzan will be making a leap in the U.S. on July 1. Keep your eyes peeled as it is promised to be packed full of vine swinging action for the entire family.
