

# Nasir Hossain's NH69

Nasir Hossain is the first Bangladeshi cricketer to introduce his own signature perfume, called NH69, with 69 being his jersey number.

The NH69 perfume exudes all the formulae that sum up the modern man. The fragrance features a 'super masculine scent' that is based on woody and spicy notes while retaining a fresh clean fragrance. It includes top notes of citrus, ginger, pine and pepper, with notes of cashmere wood, leather and rosemary, and base notes of mahogany, patchouli and skin musk.

Nasir Hossain has cited Light Sky Blue as being one of his favourite perfumes and is a source of inspiration for his own perfume.

Woman's World Ltd. is the leader in the beauty industry of Bangladesh, and The Woman's World Cosmetics Ltd. produced and built up the NH69 concept. NH69 fragrance is one of the most attractive perfume in Woman's World Cosmetics line. A new logo was created for the NH69 commercial venture in order to create a uniform visual identity for the brand.

The scent had seen its release way back in February but with Eid coming up fast, this should be a great choice for anyone on the hunt for a great perfume. The perfume is available in many retail and departmental stores including Agora, Dhaka Republic, Nabila Boutiques, etc.
