

BOBITA

SPEAKS UP ON JOINT PRODUCTIONS

Internationally acclaimed actress Bobita spends her days busy with her family, tending to her garden and her pet birds, unsure of whether she will return to films. She has also voiced concern about the local industry asking to verify if it is indeed true that the business is suffering. She also asked about how the makers are busy with joint productions and has commented that the industry cannot "bring about any change" if such a trend continues.

The admired actress also questioned about how these productions are truly benefiting the local industry, and that she is not at all interested in "tarnishing her reputation" by working in joint production projects. She added, "The industry in Kolkata is also in a vulnerable state and I fail to see how collaborating with them will bring any improvements to our scene."

The actress has not appeared on screen for years and has turned down any propositions taken to her. She spends most of her days at home and plans to spend a fun filled Eid with her family and friends.
