mond studs, can truly bring out your individuality while adding a touch of panache at the same time. With in-depth knowledge of diamond grading, these shops go out of their way to bring you the most exquisite diamond jewellery.

**LOOPS AND BELTS**

Nothing completes an outfit

like a quality belt; if you are wearing trousers, the right leather belt around the waistline can add an extra edge to your outfit.

Wear them in a different colour other than the usual shades of black for a retro look. With tribal designs, checks and rhinestones designs to pick from, there is a belt for every outfit.

**SOFT AS SILK**

Scarves can really add a stroke of colours to your outfit. Its incomparable versatility makes it an amazing accessory for any occasion!

For Eid, opt for a silk or a satin scarf and check out a few YouTube channels to find a new way of tying it instead of the classic double wrap.

Westecs and Ecstasy have a huge range of scarves starting from around Tk600.

**MAD ABOUT HAIR**

Although it is rather stylish to leave your hair messy and cute, you could go for a high ponytail with a velvet elastic band. Alternatively, hair slides with rhinestones and silver hair clips are rather trending as well, and can give you a fun, youthful look.

Those with short hair can finish off their look with a cute headband on their head. Not only will it prevent hair always coming across your face, but will also keep your hair looking properly in place throughout the day.
