

ROADS NOW WOE TO COMMUTERS

CROSSING these streets surrounding the Moghbazar-Malibagh flyover under construction is a nightmare for many city dwellers. Construction debris is left on them, leaving little room for traffic movement. Also, large potholes have appeared on the battered streets which get filled with dirty water whenever it rains, leading to public disgust. A month ago, Road Transport and Bridges Minister Obaidul Quader had directed the authorities concerned to repair them immediately. Even though some of the streets were temporarily repaired, these streets still remain in a shabby state. The photos were taken in front of Malibagh Super Market, West Malibagh, Malibagh Intersection, Siddeswari, Chamelibagh and Shantinagar areas in the capital.
