

Exporting Health to U.S.A. Made in Bangladesh.

Beximco Pharmaceuticals Ltd. becomes the First Ever Bangladeshi Pharma Company to export Medicine to the United States of America, conforming to the highest standards of quality as set by the US FDA. This is a piece of history. Made in Bangladesh.

From Bangladesh with Care - Hon'ble Chairman, Beximco Group, Mr. A S F Rahman is making the ceremonial handover of the Medicine to Her Excellency Ms. Marcia Stephens Bloom Bernicat. Mr. Abul Maal A Muhith MP, Hon'ble Minister, Ministry of Finance, Government of the People's Republic of Bangladesh was present as chief guest and Mr. Mohammed Nasim MP, Hon'ble Minister, Ministry of Health and Family Welfare, Government of the People's Republic of Bangladesh was present as special guest in this event.

A remarkable feat for the company as well as for the country's pharma industry.

Nazmul Hassan MP, Managing Director, Beximco Pharma

I am in awe of what we've achieved today and couldn't be more excited about the future. Pharma is extremely a knowledge driven, complex and highly regulated industry. I believe our planned initiatives in line with our aspirations have largely helped us expanding our reach and take our industry to the world. We have touched the lives of millions of people around the world and we have earned that trust and confidence through our unwavering commitment to healthcare. My sincerest thanks and appreciation to everyone for your profound contribution and for being with us in our journey.

A Vision seen. Another beckons.

Salman F Rahman, Vice Chairman, BEXIMCO Group

This is a proud moment for Beximco Pharma and also for the pharma industry of Bangladesh. This is a remarkable achievement and I believe this will mark the beginning of a new era for our pharma industry. We have already expanded our geographic footprint across 54 countries and much of our strategic focus is now on building and strengthening presence in the regulated markets for value added generics. In the last 45 years of our existence, we remain firm in our commitment to improve health and well being of the people by providing access to affordable medicines, and at the same time help boosting country's economic growth through various export initiatives.

On 4 August 2016, Beximco Pharmaceuticals became the first Bangladeshi Pharmaceutical Company to export Carvedilol, a prescription medicine, to the United States of America. Every granule of every tablet bears the spirit of striving for perfection in doing and honesty in being. This achievement is as much for our national character as it is of our company's. Come Bangladesh, let all of us celebrate this achievement. Here's to Excellence. Here's to Perfection. Here's to Beximco Pharma. Here's to Bangladesh. And above all, Here's to Life.

**BEXIMCO
PHARMA**

here's to life

'Our Pledge for Perfection. Made in Bangladesh'.
