CHANNEL i: CELEBRATING 18 YEARS OF SUCCESS

One of the pioneers of satellite channels in Bangladesh, Channel i will be celebrating its 18th year anniversary today, on October 1. Being the second satellite channel in the country, it has consistently provided quality content since inception. Channel i, at heart, is a channel that represent Bangladesh. From the broadcasted show to having a logo that resemble Bangladesh, Channel i is a patriotic channel. Channel i is also one of the pioneers of reality TV programs in Bangladesh that has eventually inspired many other TV channels to follow the path. The channel has never hesitated in experimenting different types of shows. It has also taken part in producing movies and at

present, is the biggest producer of films in the country.

Star Showbiz congratulates the entire team of Channel i whole-heartedly for its contribution to the media of Bangladesh, especially Faridur Reza Sagar and Shykh Seraj, whose leadership played a big role in taking the company where it is now. We hope that Channel i will keep setting milestones in the future, for which the channel should continue producing contents that focus more on quality rather than quantity, as it is one of the few channels that have the capability to do so. We wish Channel i the best of luck to continue breaking barriers and to transcend all its previous efforts in the days to come.
