

IMPACT OF CYCLONE NADA

# Over 2,000 cattle die so far

Immediate govt support sought to save one lakh more animals

MD NURUL AMIN, Noakhali

Over 2,000 cattle, including cows, buffaloes and rams, in remote char areas of the district died due to incessant rain and cold caused under the impact of cyclone Nada in the Bay from November 3 to 6.

Cattle breeders said one lakh animals in the char areas could die if the government fails to dispatch medicine and veterinarians immediately to the affected areas.

District livestock officer Dr Md Abul Kalam Azad said on Sunday that they were unable to provide emergency treatment to the sick animals for lack of field workers.

More than one lakh cows, buffaloes and rams are reared in chars on the Meghna river in Hatiya, Subarnachar and Companyganj upazilas as the land is unfit for human habitation and there are vast grazing fields.

The remaining healthy animals are becoming sick as the dead cattle have not been removed, villagers said, adding that they wanted quick removal of the carcasses.

Many cattle are suffering from diarrhoea after drinking saline water brought in by high tide, and many are dying of cold and pneumonia.

According to the district livestock office data, 994 cows, buffaloes and rams died in three upazilas due to cyclone Nada related causes. Statistics from the whole district are yet to reach them.

Though livestock officials claimed that four teams were working in the area, many locals said no veterinarian had gone there as of yesterday.

Carcasses of cattle that died of diseases due to incessant rain and cold under the impact of recent cyclone Nada in the Bay lie scattered in a remote char area of Noakhali.

## Mahendranagar road still in sorry state

OUR CORRESPONDENT, Lalmonirhat

Road communication between the district and other parts of the country is still disrupted due to the awful condition of Mahendranagar-Barbari road in Sadar upazila since November 7.

Many potholes have developed on the 5-km-long road that connects parts of the district with the district town. Of the two other connecting roads, Barabari-Kulaghat is also in bad condition and Mahendranagar-Mostafi road is closed for repair work, transport workers said.

Mobarok Ali, 45, a truck driver from Bogra, said his truck got damaged yesterday due to the potholes. "If I had known about the vulnerable condition of the road in Lalmonirhat I would not have come here," he said.

Bus driver Ibrahim Miah, 48, said they

stopped driving buses on Lalmonirhat-Rangpur, Kurigram and other routes due to the terrible state of the roads. "We have been facing trouble while going from Lalmonirhat to other parts of the country due to vulnerable roads for the last 10 months," he said.

Truck driver Romesh Chandra Barman, 45, of the town, said the damaged road not only causes suffering to the people, but also causes loss to transport workers.

Truck owner Shah Alam, 45, said his transport business is being hampered due to the unusable road.

Mansur Ali, 52, said they have been suffering as it is very risky travelling on Mahendranagar-Barbari road by bus.

Executive Engineer Sajedur Rahman said overloaded trucks and 10-wheel trucks are responsible for the vulnerable condition of the road. "We repair the roads, but they get damaged again as over-loaded vehicles move on them," he said.

## EARLY CAULIFLOWER CULTIVATION

# Fortune smiles on Chuadanga growers

OUR CORRESPONDENT, Kushtia

Early cauliflower cultivation has brought smiles to Chuadanga growers this year as they are making good profit selling their produce at a high price after they suffered a loss last year due to low price.

The vegetable is being sold at Tk 1,000 to Tk 1,200 per maund, while the price was Tk 300 to Tk 400 last year.

Farmer Anwar Hossain of Gaidghat under Chuadanga's Sadar upazila said he cultivated cauliflower on 20 bighas of land this year, spending Tk 15,000 per bigha.

He earned Tk 5.50 lakh selling the produce of 14 bighas and is expecting to earn more than Tk 2 lakh from the rest of the crop.

Israfil Hossain of Belgachi said he

cultivated cauliflower on his five bighas of land. He told this correspondent that he had incurred a huge loss last year, but this year the vegetable has brought him a fortune.

According to the Department of Agricultural Extension (DAE), farmers planted early cauliflower on 1,371 hectares of land in the district this year. Good yield of cauliflower was due to favourable weather, DAD added.

Vegetable trader Alauddin Ahmed Sagar of Munshiganj said he bought around 32 maunds of cauliflower that would be sold in Dhaka where there is a good demand.

DAE Deputy Director in Chuadanga Nirmol Kumar Dey said early farming of cauliflower brought good profit for the farmers.
