

TITAN CRASH COURSE

SCORCH

RECOMMENDED TITAN KIT: **NUCLEAR EJECTION**
 RECOMMENDED SCORCH KIT: **WILDFIRE LAUNCHER**

Excellent for zone control and outnumbered scenarios, Scorch is a tank-class Titan that can go toe to toe with pilots and Titans alike. We recommend using a combination of his gas cannisters and Firewall to create dangerous terrain for his foes to traverse. When facing a Titan 1-on-1, close the gap and burn them using Thermal Shield while closing off their escape route with the Firewall combo. Finish the job using Flame Core.

SUITABLE FOR:
BEGINNERS
 WEAK AGAINST:
RONIN
 TRAITS:
TANK, CONTROL, BURST

RONIN

RECOMMENDED TITAN KIT: **TURBO ENGINE**
 RECOMMENDED RONIN KIT: **TEMPORAL ANOMALY**

A high skill, high reward Titan, Ronin requires quick reactions to be played to full effect. His wide array of survivability options make him one of the most elusive Titans in the game. Execute hit-and-run attacks with his sword melee and shotgun while using Phase Dash to quickly reload and reposition yourself out of sticky situations. Turbo Engine will give you an extra dash to close gaps with ease. Couple your mobility with sword core for total annihilation of your foes.

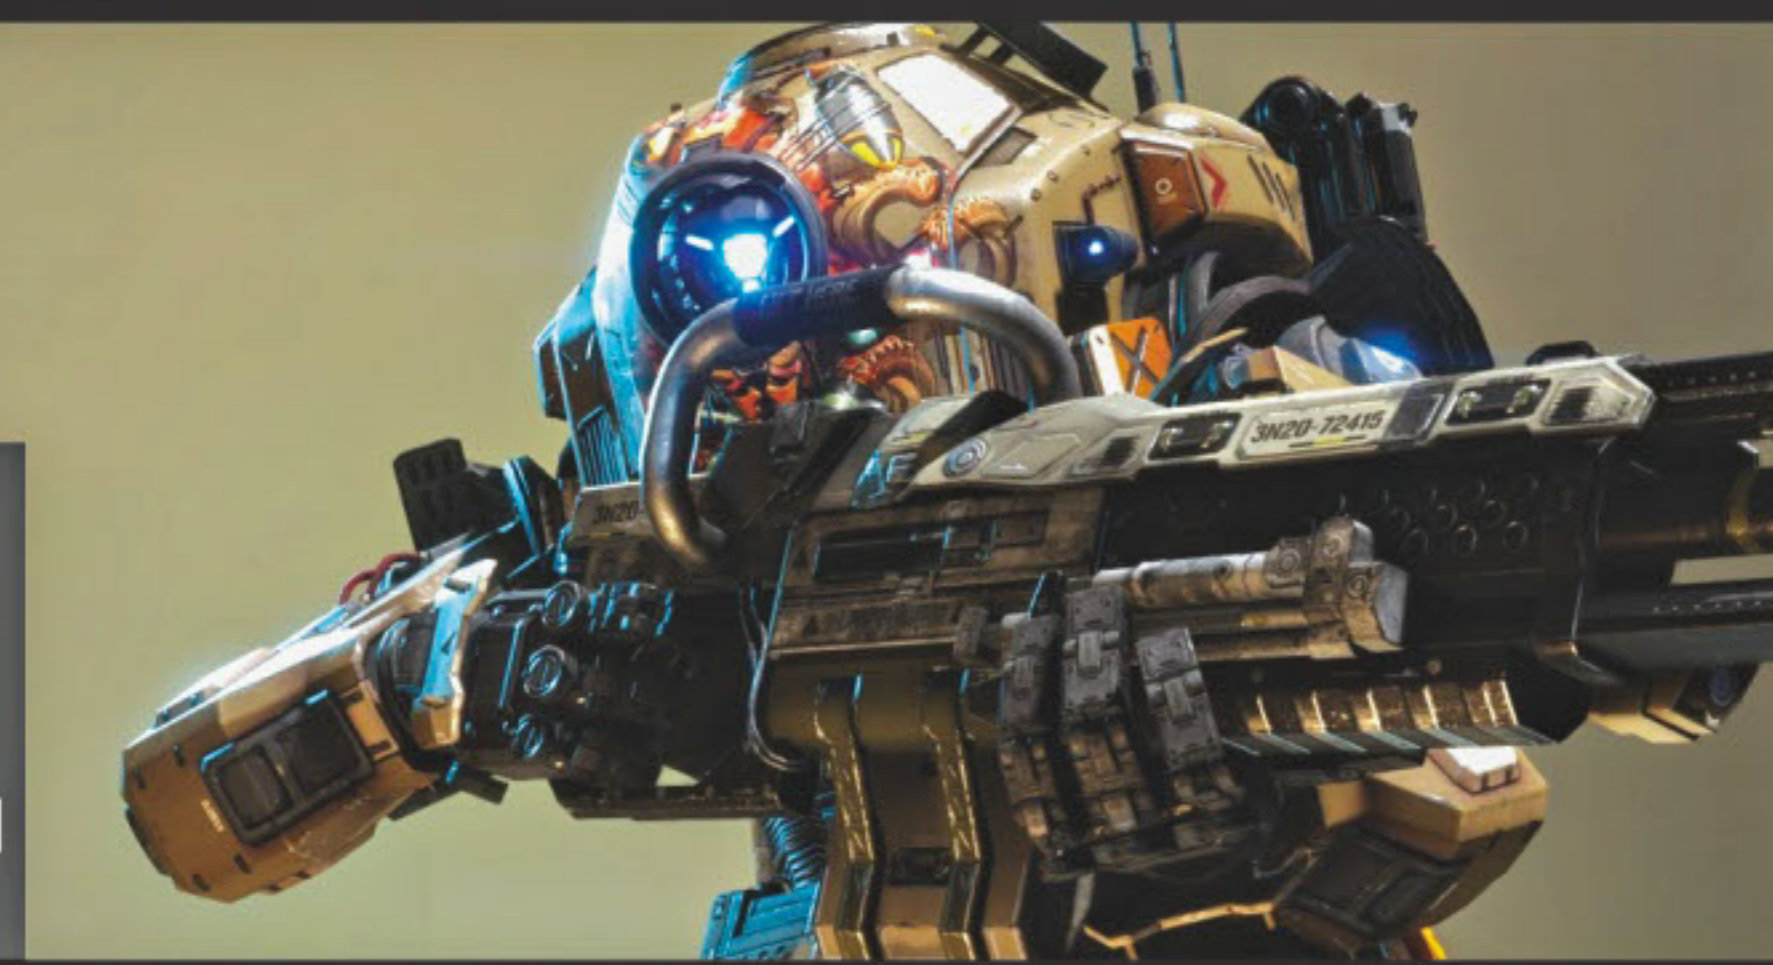

SUITABLE FOR:
VETERANS
 WEAK AGAINST:
STONE
 TRAITS:
GLASS CANNON, BURST, MOBILE

TONE

RECOMMENDED TITAN KIT: **NUCLEAR EJECTION**
 RECOMMENDED RONIN KIT: **REINFORCED PARTICLE WALL**

A bruiser Titan that specializes in consistent burst DPS, Tone is an ideal fit for those who want to track down mobile targets and eliminate them. Use Pulse-Echo to gain a stack of Tracking Rockets on multiple targets then paint them using your 40mm Tracker Cannon. Use salvos of Tracking Rockets to dish out massive amounts of damage to your enemies. Remember to use Particle Wall to cover your rear if you get boxed in by multiple Titans.

SUITABLE FOR:
REGULARS
 WEAK AGAINST:
NORTHSTAR
 TRAITS:
BURST, BRUISER, VERSATILE

NORTHSTAR

RECOMMENDED TITAN KIT: **OVERCORE**
 RECOMMENDED NORTHSTAR KIT: **VIPER THURSTERS**

Northstar is a unique Titan in the sense that this is the only Titan that can snipe pilots and Titans. You will need to position yourself safely away from the conflict as the only close-range tools you have at your disposal are your tether traps which are extremely effective for holding a Titan in place while you run away or for containing a target so that you can take pot-shots at them. Use your Flight Core wisely as you may be bursted down easily if you get too close to the fight.

SUITABLE FOR:
VETERANS
 WEAK AGAINST:
RONIN
 TRAITS:
SNIPER, GLASS CANNON

LEGION

RECOMMENDED TITAN KIT: **NUCLEAR EJECTION**
 RECOMMENDED LEGION KIT: **REINFORCED PARTICLE WALL**

A tank Titan like Scorch, Legion excels at holding a position with his absurd tankiness and minigun. Switch between your different minigun modes according to the situation but do so carefully as there is a slight delay before you can fire your bullets after you switch up your mode. When you get swarmed by Titans and Pilots, use your Smart Core to quickly track fast moving targets and eliminate them. Legion has no mobility options. So be careful not to get flanked.

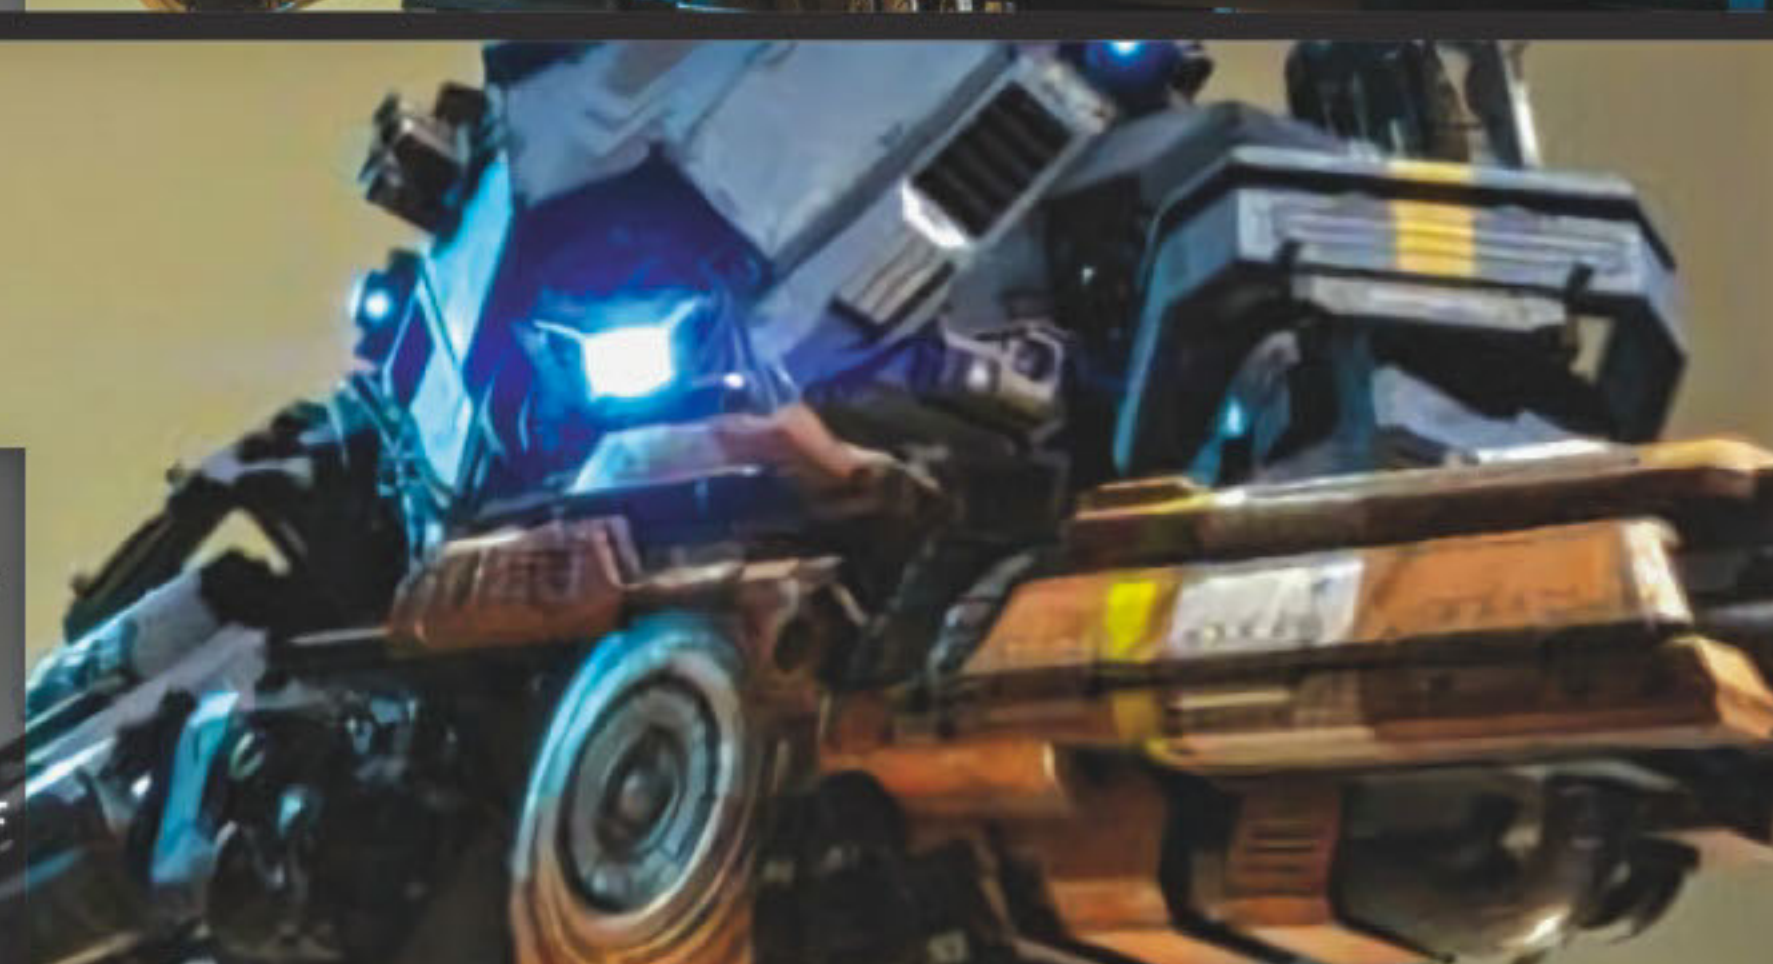

SUITABLE FOR:
REGULARS
 WEAK AGAINST:
SCORCH
 TRAITS:
TANK, DPS, CONTROL

ION

RECOMMENDED TITAN KIT: **OVERCORE**
 RECOMMENDED ION KIT: **VORTEX AMPLIFIER**

Ion is the most versatile Titan in the game. If you want to control an area, your Tripwire will prove most effective. If you want to quickly burst down a Reaper or a low-health Titan, your Laser Shot will fit the bill. Combine all these with a Splitter Rifle that does incredible DPS and a Vortex Shield that returns damage to enemies, and you have a Titan that can fit any role. Ion's Laser Core is also one of the highest damaging abilities in the game.
