JOLOJ 2, A GROUP PAINTING EXHIBITION

Date: 17-31 December, 2016

Venue: La Galerie, Alliance Francaise

Joloj 2 (Aquatic 2) is the second edition of the 2015 exhibition, Joloj and features

human body into balance. Discovered by Dr Mikao Usui in the 1920s in Japan, it reduces stress, boosts the immune system, expands consciousness, reduces addiction, and instils deep relaxation.

Through completing the attunement process of Usui Reiki Method level 1, a practitioner is expected to unite their energy body with Universal Source energy and remain a Reiki healer for life. They can use this infinite flow of healing energy to heal all humans, plants, animals and even childhood traumas, emotional scars and physical spaces.

The workshop will be held on a gentle boat ride down the Shitalakshya River organised by the Guide Tours Ltd.

The course fee for this program is Tk

artists Bishan Bhakta, Golam Moshiur Rahman Choudhury, Md. Al-Akhir Sarkar, and Sadek Ahmed.

The artists feel - water, in Bangladesh, is ubiquitous. To the untrained eye, layers and layers of bricks and concrete, man-made mundane monuments of melancholy may seem arid or "waterless", but beneath it all, water flows, cascades, swirls and streams and calls out to every person — to wet their feet in it. Even the indolent ones cannot help but respond to that call when rainy season happens, when a limpid pond as if by magic emerges amid greenery, or when thousands and thousands of rivers of Bangladesh make it almost impossible to not embrace water and its beauty.
