and arrested the seven accused, he added.

"The technical probe committee found evidence of deliberate negligence in the incident. As a result, the accused people have no scope for denying their responsibilities," said the official.

Interrogating the arrestees on remand, police would try to find the motive or whether anybody else was involved, said Monirul.

"Now our duty is to find what roles each of the nine accused played and see whether the incident was part of a bigger conspiracy," he added.

THE ACCUSED

The nine accused are: Siddikur Rahman, a junior technician; engineers SM Rokonuzzaman, Samiul Haque, Lutfur Rahman, Milon Chandra Biswas, and Zakir Hossain; chief engineers Debesh Chowdhury and SA Siddique; and Billal Hossain, principal engineer.

Rokonuzzaman and Siddikur were absconding before they surrendered and sought bail.

They were also produced before a court with a 10-day remand plea but the hearing did not take place yesterday.

THE CASE STATEMENT

The case statement mentioned that some necessary repair of the oil pressure sensor was conducted on the airplane before the VVIP flight.

"The oil pressure sensor and B-nut are next to each other. The complainant anticipates that the B-nut was loosened by the persons repairing the oil pressure sensor," read the case statement.

The B-nut could also have been loosened if it was pushed during the repair, said the statement, citing the report of the technical probe committee.

It could be an act of sabotage, it mentioned.

Of the accused, Siddikur was directly involved in repairing the oil pressure sensor while Rokonuzzaman signed the Maintenance Release Book, it said.

Accused Samiul gave the repair job to Siddikur. Engineers Lutfur and Milon were present when the repair was done, but they did not perform their duties.

Engineer Zakir was tasked with collecting documents. Debesh did not discharge his duties as the team leader of VVIP inspection team.

As the chief engineer (quality assurance), SA Siddique did not do his job of supervising following the VVIP Standard Operating Procedure (SOP), said the case statement.

It added that the ninth accused Billal claimed that he verbally formed a four-member maintenance team. But in reality, the existence of such a team was not found.

It was evident in the investigation that the oil pressure sensor repair was done by junior technician Siddikur Rahman without the presence of any licensed engineer, although the rules stipulate the supervision of an engineer, read the statement.

It also mentioned that unauthorised metal jawed pliers were used for repairing the oil pressure sensor instead of the Teflon jawed pliers recommended by Boeing.

Quoting the VVIP SOP, it read, "The team leader will be responsible for ensuring that all checks/inspections of the VVIP aircraft are properly done."

Dowry-hungry

FROM PAGE 20

In a mindless act of brutality, Suma's husband Belal Ahmed along with two others cut off her tongue and slashed the tendon of her left leg for dowry at her mother's place in the city.

The following day, Hafizur filed the case with Jalalabad Police Station against Belal, his mother Joybunnessa, brothers Kamal Miah and Helal Miah and two other unidentified persons.

Police have arrested Joybunnessa and two relatives of Belal, and are hunting out others, said police sources.

Meanwhile, the 26-year-old daughter, of late Abdul Ali of Paschim Dorsha village in sadar upazila, has been undergoing treatment at Sylhet MAG Osmani Medical College Hospital.

Her physical condition is improving and she may have to stay another week at the hospital, said Atiqul Ghani, assistant registrar of the surgery department.

"With her tongue and one leg's tendon cut off and a deep stab to her left chest, it may take her years to live a normal life. She may lose the clarity of her speech," he said.

Suma is the youngest among three sisters and a brother. Her father died when she was a child. Her mother Aimuna raised them alone working as a house help. Now, Suma's brother Hafizur runs the family.

Suma and Belal got married in 2008 despite his mother's disapproval, her family said. She stayed with her family until Belal took her to his house in 2013.

When she was living at her mother's place, Belal demanded money from her to do business.

Suma at one stage was pressured into taking out Tk 3 lakh loan from a non-government organisation. For the first couple of months, Belal paid the interest but then Suma's mother and brother had to carry the loan burden.

Belal, who works at a car workshop at Sobhanighat in the city, married another woman in 2011 without permission of his first wife Suma. In 2013, Belal took Suma to his rented house, somewhere at Sobhanighat, but she returned to her mother's after four months as Belal asked her to give him Tk 2 lakh more to build a house.

Since then, Belal used to visit Suma there, said her mother.

On December 15, Belal went to Aimuna's house and called out Suma from outside.

He walked Suma to a nearby hut filled with firewood, tied her up there with the help of two others, cut her tongue and left leg's tendon and stabbed her.

He also tried to slit the tendon of her right leg but failed as Suma's mother came out of her house and was looking for her. The criminals then fled the scene.

Apart from Joybunnessa, police arrested Belal's cousin Foyez Miah and nephew Redwan Ahmed, said Akther Hossain, officer-in-charge of Jalalabad police.

"The arrestees have connection with the torture. The court granted one day remand for Foyez and gave permission for interrogating Redwan."

Police have also circulated Belal's photos to all police stations and through the social media to hunt him down, the OC said.
