AQUARIUS (JAN. 21-FEB. 19)

2017 gives you an ideal opportunity to address past mistakes. 2017 also brings tons of opportunities regarding career and finance. Chances of romance run high. All these opportunities, both work and love, will lead to you being very busy throughout the year. If you put in the effort, the rewards will be more than worth it.

PISCES (FEB. 20-MARCH. 20)

2017 will be your busiest year yet, with your attention demanded in just about every sector of your life. However, this is a good thing as the rewards for these efforts will be tenfold. Plan things thoroughly or troubles will be plentiful. Find time for your loved ones as they may feel neglected.

WHY DO WE NEED TO TRIM OUR TUMMY FAT ?

Everybody desires a flat seductive tummy but with age, stress, sedentary life style, child bearing or lack of exercise can keep you far away from it. Sadly, tummy fat is not just about fitting into your clothes but also a big issue for long-term health.

Here are 4 reasons to work on shedding it:

1. The visceral fat of the tummy is "biologically active," & produces hormones (adiponectin & leptin) that affects appetite & metabolism & blood sugar-regulating insulin. **Fatty liver change** is one of its consequences.
2. Fatty acids released by belly fat are also linked to higher LDL (bad cholesterol) & lower HDL (good cholesterol) & pumps out cytokines promoting constant low-level inflammation & insulin resistance.
3. As large waists are estrogen receptor negative, it is more likely to develop breast cancer.
4. Tummy fat & reduces fertility and potency.

**Shape up
without
surgery
and pain**

Its better late than never...

- **Ultracontour HIFU** (High Intensity Focused Ultrasound) can be an excellent answer to achieve a flatter tummy.
- This revolutionary French technique sculpts your body by eliminating the unwanted pockets of 'exercise & diet-resistant fat'
- Effective on fat of **tummy, hips, love handles, thighs, back & arms.**
- The multisequential ultrasonic waves burst the fat cells & drain the fluids & the waste immediately by Ultrasound Multi-Lymphatic Drainage (UMD).
- The procedure is permanent & shows circumference loss of 1-3 inches after the procedure.
- This fascinating procedure can be a non-invasive answer to those who are afraid of surgical intervention & more concern about shaping up themselves.
