FRESH BLOOM IN WINTER

Dismal winter discourages even the most fashionable from donning latest trends. The season, perhaps with its chilly wind and the misty fog persuades everyone to try out monotonous colours like grey, beige and white. It can look extremely boring to be dressed in the same, tedious colours, everyday. Preali Collection, a chic fashion store in town - thought differently, introducing the sprightly colours of spring, even in the chills of winter, to spice up everyone's wardrobe even in the dullest of weather.
