HRIDOY KHAN

Hridoy Khan broke out in 2008 not only as a prodigal musician, but also went on to become a style icon. Star Showbiz interviews him for some secrets to how he maintains his good looks and style!

Hair is perhaps one of the most important aspects of any man's look. If you ask women, a lot of them will say that the first thing they notice in a man is his hairstyle. Thus, it is very important to have a good haircut whether long or short. The key to a good hairstyle is well maintained hair. One must make sure to take regular and frequent trips to the barber. And most importantly, clean their hair with a good shampoo everyday. Hridoy Khan is well known as a huge fan of different hairstyles. He says that from his early teen years, he has been experimenting with his hair. He always tries to maintain hairstyles that are different from the mainstream ones (flashback to blonde highlights). And when it comes to maintaining these hairstyles, he always turns to hair wax. But according to him, he still hasn't found the perfect wax just yet. Currently, he is using the hair wax by Gatsby.

Perfumes are essential to any man's wardrobe. Although the perfume commercials may exaggerate the effect of a perfume on women, one can never go wrong with a good perfume. Every man should have at least two classic scents on his dressing table. Hridoy Khan's personal favourites are Jean Paule and Armani.

Guys don't have the luxury of choosing from a huge range of accessories like women do. But the few accessories guys can keep are very important for their look. Watch is a must for every man. You don't need to have a large collection of watches. But do make sure to invest in at least one good watch. It will not only last a very long time but will complete your every look. And make sure to never ever leave the house without a watch on your wrist. Hridoy Khan loves watches from Michael Kors and Fossil. During the interview, he had a Michael Kors watch on his wrist. That is his favourite amongst all the brands.
