First phase hike from next month, second phase from June

A household will have to spend Tk 150 more on monthly gas bill from March 1, as the energy regulator yesterday raised gas prices for all consumers by 22.7 percent.

Households using double burners have to pay Tk 800 each from next month compared to Tk 650 now, while those using single burners have to pay Tk 750 each against Tk 600.

The prices would be increased again on June 1 by another Tk 150 for each gas stove, as Bangladesh Energy Regulatory Commission (BERC) yesterday decided to implement the hike in two phases.

From June, the monthly gas bill for a double burner will be Tk 950 and for a single burner Tk 800.

Four superintendents of police (SPs) will lead the wing and the three battalions. A deputy inspector general (DIG) will be the chief of the total unit, which will have 3,188 members, according to the proposal.
