SPECIAL SUPPLEMENT 3

FROM EDUCATION TO EMPLOYMENT

EDITOR'S NOTE

This issue, **From Education to Employment**, is the third instalment of our 232-page special supplement series on the occasion of the 26th Anniversary of *The Daily Star*.

In celebration of 26 years of *The Daily Star's* journey, we take on the subject of our education system, empowering the youth, and energising entrepreneurship at various levels. With articles on attaining global standards in universities, skill development, protecting labour rights, developing our startup ecosystem and more – this issue analyses the potential of our burgeoning youth population and presents experts' opinions on how they can take our nation forward.

Be sure to follow up on the subsequent issues, titled **Environment and Climate Action**; and **Towards a Just and Inclusive Society**, which come out on February 26 and 27 respectively.
