

Attaining global standards in our universities

CONTINUED FROM PAGE 6 including political elements, regulatory bodies, accreditation bodies, bureaucracy, experts, associations, the legal system, and more.

The overall evidence points to the need to establish a discipline or programme—academic administration—for those who vie for administrative positions. Without training, it is perilous to hand over the reins of management to them. On this matter there is much research to be done and volumes to write.

Academic programmes

Rather than just a mere pathway for fulfilling degree requirements, innovative academic programmes must engage students to explore new ideas and challenging problems. Duke's students are not only encouraged to

think about future career opportunities, they are also given the tools necessary for a lifetime of learning and global citizenship. In Bangladesh, too, we need vibrant programmes, exciting curricula, and student engagement with the real world to bring alive what they learn in the classroom. Providing students with a mere certificate at the end of a four-year programme does not a university make!

Resources and facilities

The growth of any system can be constrained by the amount of resources available to it. Overall, financial allocations to the education system in Bangladesh has been pitiful. According to World Development Indicator (WDI) data, Bangladesh has an education budget of only 1.9 per-

cent of GDP (roughly over the last 14 years), whereas Afghanistan has 4.6 percent, Bhutan 5.6 percent, Nepal 4.1 percent, India 3.9 percent, and Pakistan 2.5 percent. One study indicates that the percentage of "university" allocation from the education budget is less than 10 percent. Of this, private universities get nothing—nada!

As for facilities, in a study we recently concluded, students indicated the role and importance of adequate facilities such as a permanent campus to give them freedom, dignity, identity and friendships. Facilities that truly facilitate are thus vital to the functioning of a high quality university.

Conclusions

Global standards are not attained overnight. There is much to be done in "effective management," especially realigning roles and responsibilities without which the universities will generally run in crisis mode. The structure of a university must also not be imposed from outside. As an example, at Macquarie University, the Vice Chancellor is supported by "five" Deputy Vice Chancellors and a Chief Operating Officer, each in turn supported by their own substantive teams. In Bangladesh, the structure, laid down by external bodies, is inflexible and significantly constrains managerial responsiveness. There must also be significant and continuing capacity building efforts at

various levels.

At a higher level, there must be a collective will among the key stakeholders to strive for global standards. A leadership role must evolve from this collectivity to guide the effort. Added to these conditions is the need for relevant stakeholders to work painstakingly on the five-factor holistic model. Only then can we make serious progress towards attaining global standards in higher education. That's when we will be creating human assets of high value.

UNITED INTERNATIONAL UNIVERSITY

QUEST FOR EXCELLENCE

ADMISSION

Test on March 10, 2017

UIU Permanent Campus

Join UIU & Enjoy Great UIU Life

Online application and submission are available at UIU website.
www.uiu.ac.bd

Summer 2017

Activities that Make Difference

Centre for Energy Research (CER)
The Pioneer in Renewable Energy Research in Bangladesh

Centre for Energy Research (CER), UIU for receiving the "United Nations Momentum for Change 2016 AWARD" in Marakkesh, Morocco.

Very Large Scale Integration (VLSI) Lab.
Join EEE @ UIU Be an IC designer, be a smart Professional

CILT International Diploma in Logistics and Transport
Programs Jointly Offered by UIU & CILT, UK

International Events

International Conference on Renewable Energy 2016

International Conference on Software Engineering 2014

1st International Career Summit 2014

Scholarship Scheme

UIU awarded **11 crore** taka as scholarship in 2015 alone, one of the highest amongst the private universities.

Every Trimester 20% students get 25%-100% tuition fee waiver based on previous results and trimester results.

If you are a serious student, take the challenge and build your future with UIU.

UIU IS PROUD TO BE RANKED "GOOD" IN ALL ITS ENGINEERING PROGRAMS

Professional Programs

CDIP
CDIP offers following programs:

1. Professional Software Development in .NET
2. PHP Laravel Framework
3. Full stack web development
4. Graphic Design
5. WordPress Beginner to Advance

UIU CISCO Networking Academy
UIU CISCO Networking Academy offers following programs:

1. CCNA Routing and Switching
2. Introducing CCNA Security
3. LINUX Administration & Server Configuration

IEB
IEB offers following programs:

1. Post Graduate Diploma in Human Resources Management (PGDHRM)
2. Accounting for Non Accounting Managers.
3. Certificate Training on Income Tax Law & Value Added Tax (VAT)
4. Certificate Training on Advanced Financial Analysis & Modeling Using Microsoft Excel

IEB ACCREDITATION
