Rampant hill cutting increases landslide risks

MINTU DESHWARA, Moulvibazar

Despite a government ban, illegal hill cutting is rampant in the hilly areas of Moulvibazar.

Villagers under Barlekha, Kulaura, Sreemangal, Juri and Rajnagar upazilas, which are mostly hilly, are passing days in fear of landslides as the rainy season approaches.

"Incidents of landslide happen every year during the rainy seasons due to illegal hill cutting," said Abdul Mannan, a farmer of Dimai village under Barlekha.

"The entire road from Dimai Bazar to Barlekha was blocked due to a landslide last year. We continue to live in fear of landslides," said Tapan Das, a villager under Juri.

According to green activists, unabated hill cutting is posing a serious threat to the natural environment and biodiversity of the area.

Many powerful individuals cut hills in the name of development work, houses and business establishments, ignoring existing environmental laws and defying ban by the

Department of Environment (DoE), they added.

All these people have made the hills a death trap where landslide claims lives on a regular basis.

Though the district administration is conducting drives, strict measures are needed to stop this menace, said Abdul Karim Kim, general secretary of Bangladesh Poribesh Andolon, Sylhet chapter.

He said despite drives by the administration, influential locals continue to raze hills and extract stones in the area.

Contacted, SM Abdullah Al Mamun, UNO of Barlekha upazila, said they are conducting drives against hill cutting.

He said the administration on Thursday fined two persons a total of Tk 55,000 in Daulatpur area under Barlekha upazila for cutting hills. They were identified as Abdul Jalil, a resident of Daulatpur village, and Dinar Hosain, a resident of Banikuna village.

"Some unscrupulous people are cutting hills to dig out stone, while some are leveling it for housing plots," he said.

Appeal for help

STAFF CORRESPONDENT

Dr. Kazi Mohammad Fakhrul Islam, who graduated from Chittagong Veterinary and Animal Sciences University in 2016, is suffering from liver cancer.

Diagnosed with the disease in March 2017, he is now undergoing treatment at Gleneagles Global Hospitals in Chennai, India.

Doctors say a total of Tk 30 lakh is needed for his treatment, which his father, a farmer, alone cannot afford.

So, the family appealed to the well-off to extend their helping hands to save his life.

Field Epidemiology Training Program – Frontline, Bangladesh

The Institute of Epidemiology, Disease Control and Research (IEDCR), and US Centers for Disease Control and Prevention (CDC) jointly invite application for next batch(es) of the **Field Epidemiology Training Program – Frontline, Bangladesh**.

To expand public health workforce capabilities at the local level US CDC launched FETP-Frontline in 2015. In Bangladesh, FETP-Frontline course started in March 2016 and 62 candidates have graduated in 3 batches.

The three months hands on intensive training program including classroom sessions for 3 and 2 weeks and field exercise for 7 weeks has been designed for government doctors and veterinarians working at upazilla level to increase the capacity and knowledge of the participants regarding surveillance and responding to disease outbreaks and other public health threats.

For further information about this innovative program and application requirements, instructions and selection process please log on to: www.iedcr.gov.bd. Prospective applicants should apply to the Office of the Director, IEDCR, Mohakhali, Dhaka-1212 by **April 20, 2017**.
