Reigning Queen

JAYA

Jaya is currently one of the most successful actresses of modern times. She recently starred in the Tollywood movie "Bishorjon" which was released on 14th April. But even before releasing, the movie was nominated in the 64th Indian National Awards and won in the Best Bangla Film category. The movie was directed by Kaushik Ganguly with the ladies Jaya Ahsan and Abir Chatterjee. "Bishorjon" has been a huge hit in the Indian theatres and Jaya is quite content with the successful reception, especially from critics. Seems like Jaya is not only ruling Dhallywood but also Tollywood!
