

# DEEPIKA

## SHOT "RAABTA" IN ONE NIGHT!

The title track of "Raabta" was released recently and within only two days, it garnered 11 million views! The song features Deepika Padukone wearing a black dress with cutwork, embellishment and working the double slits and rocking heavily kohled eyes. The music video has been widely appreciated, along with her performance. But the amazing thing is that she shot the entire video in one night! The director of "Raabta", Dinesh Vijan, messaged her about the video and

she instantly agreed. Vijan said, "Deepika gives attention to small details and that makes all the difference. She sat with me for some time to understand the nuances and mood of the song. After that it was a swift shoot." Dinesh considers Deepika lucky for him and said that he is ecstatic that she agreed to be a part of the music video. They have previously worked together in "Cocktail" and "Love Aaj Kal".

# JULIA ROBERTS

## Wins 'Most Beautiful Woman in the World' for the 5th time!

Julia Roberts made history by being declared as the 'Most Beautiful Woman in the World' by People Magazine for their 1st May issue, for the 5th time! "I am very flattered", the Lancôme brand ambassador said regarding the honor. "It will become embarrassing. Right now, let's just keep it with flattering." She was just 23-years old when she was declared as the most beautiful woman by People Magazine for the first time in 1991. This was right after "Pretty Woman" was released, and then Roberts received the same honor

simultaneously in 2000, 2005 and 2010. She joked that back in 1991, she felt adorable, naïve and just happy to be invited to the party. She admitted that even after being awarded the title, she still struggled with self-confidence issues and she eventually came to terms with it. Roberts said that currently she is very happy with husband of 14 years, Danny Moder, and their 3 children. She stated, "I think I'm currently peaking."

# AKSHAY KUMAR

## wasn't considered an 'actor'!

Akshay Kumar recently won the National Award for his performance in "Airlift". However, the actor conversely claimed that earlier in his career, he was always approached for action movies and not serious roles that required intense acting. He also admitted that the reason behind this was his stunts. "When I came to this industry, my first words were that I am a stuntman first, then an actor. For nearly 10 years, I only did action," said Akshay.

In the 90s Akshay only did action

movies from which he gradually shifted to romantic comedies in the 2000s, and then finally, serious social dramas in the latest movies. However, the ever-humble actor didn't forget to thank all his stuntmen and went as far as to claim that he is here today because of them. He also talked about how stuntmen deserve more respect than they are given. Seems like Akshay still hasn't forgotten his struggling days!
