

# UHH distributes iftar and Eid gifts among haor people

MOHSINA TABASSUM PUSHPO

The voluntary organisation Universal Help Hub (UHH) organised an iftar mahfil along with Eid gifts distribution programme for almost a thousand families at Fatehpur Union of Bishwamvapur Upazila in Sunamganj district on June 16, 2017.

Assistant General Secretary of UHH, Tanzimul Islam

said, "This year we are trying to stand beside the helpless people of haor region. The first time, we were aware that the support we had brought for them was inadequate compared to the number of people. We later made a documentary named "Floating Dream" focusing on the miserable lives of these people. This made other individuals and organisations come forward in standing beside them."

The President of UHH, Md. Mujahidul Islam said, "We have two upcoming projects: Shonirvorotar Jonno Jakat, by which we will be trying to help people become self dependent, and 'Healthy Nation - 4' which is part of our regular programme. It will be held in Lalpur, Natore after Eid on July 7. I hope and expect cooperation from all to undertake and complete these projects of UHH successfully in the future."

## BRACU launches mobile app for students

BRAC University (BRACU), on June 15, 2017, launched a mobile application for students based on the Android mobile operating system.

BRACU VC Prof. Syed Saad Andaleeb Ph.D., with the click of a button, made "BRACU Mobile" available in Google Play Store from Global Development Learning Network (GDLN) Centre of BRACU.

Installing the app in their Android phones, students will be able to view their university-based profiles, which will include grades, class and exam schedules, announcements, advices, the academic calendar, upcoming events, latest news,

important contacts, photos and videos of important events and even the daily menu of the university cafeteria.

The app will include a QR code scanner, a "DSPACE" icon giving access to tonnes of institutional data from BRAC University Institutional Repository and a unique "Push Notification" feature giving free-of-cost updates, especially that regarding nano satellite "BRAC Onnesha" and its corresponding ground station.

A "User Feedback" form is also accessible for further developments and BRACU is in the process of developing an iOS version of the app.
