Monsoon makeup and fashion hacks

-  Primer is a must for the season. This prevents makeup from fading away leaving you streak free.
-  Focus on waterproof cosmetics - mascara, eyeliner, and lipstick. And of course you'd look your beautiful self even after hours of downpour.
-  Flaunt the nude look with minimal makeup. Just a little bit of 'kajal' can set your look perfectly for the entire day.
-  Wedges are a best buy for the season; if you want to dodge all the muck that is!
-  Cotton garments are preferable as they soak fast the humidity in the air.
-  Flowy silhouettes are IN for the season, so if you were opting for that Anarkali cotton kurti... well! It's just the right time to buy it.
-  Flip-flops will never ever go out of fashion, but if you still think it as a low key item. Opt for the very best in design - 'the haute qualité'. Butterfly prints or polka dots, maybe!
