

# SAVIOUR ON A RAINY DAY

As much as we want to stay home and make ourselves a cup of coffee, the daily morning classes or office awaits and all of a sudden, we start to know that the rain just might not be coming at a convenient time.

Summer is almost over and as the calendar labels June to August as a rainy season, we all know how hot and rainy it will get at the same time. To protect ourselves from the sun, sunscreen is not enough. With the upcoming 'mood swings' of the seasons, it is necessary for you to have umbrellas, raincoats and boots available.

## UMBRELLA FIESTA

These are monsoon staples and you can never go wrong with colourful, transparent,

or reverse umbrellas. Finding the right one might prove a little tricky but there are plenty of online shops and Facebook pages to browse through before settling on a pick.

Ajker Deal, One Stop Shop BD: Online Shopping BD, and Intermix: BD online shop — these sites have plenty on offer. You can also order custom-made umbrellas online!

## OF RAINCOATS AND BOOTS

If you are a biker, or just someone who does not want your attire drenched with mud

stains, rain jackets or raincoats are an obvious choice. If you want to get yourself something out of the box that is both useful and fashionable, try Cyclehub.BD, Bike Shop.BD, Auto Fair BD, among others — online shops that will certainly not disappoint.

Raincoats are a better option for children than umbrellas. And they do look impishly cute in them. New Market, Gausia, Gulshan DCC market are good places to look at for affordable, long-lasting rain jackets.

## RUBBER SLIPPERS

Who says a humble slipper cannot be a style statement? Visit any of the outlets of Apex, Bata, Step Footwear, or Lottos and you will be dazzled with the variety in terms of design and colour of the products. Say good-bye to the monsoon blues!
