

The magic of multipurpose furniture

The lack of apartment space is one common complaint that is heard almost everywhere in the city. While not much can be done regarding the soaring apartment prices or the modern day apartment models, it hardly means you have to forgo your favourite furniture pieces! With versatile functionality and sleek designs, multipurpose furniture is every modern urbanite's dream. These pieces will not only make your hectic life easier, but the aesthetic models are surely revolutionising the furniture industry in general.

Multipurpose furniture mostly relies on a folding mechanism, innovatively designed so that parts can be extended or stored, according to one's requirements.

seem to have it all. Whether you want two extra seats for your guests or even an extra bed for those occasional sleepovers, Hatil Smartfit has you covered.

require minimal space.

For couples opting to find a smart solution, beds including closet space along with shelves can be found at Hatil for around Tk 1.5 lakh.

However, Smartfit is hardly limited to just the living room and bedroom. Dinner wagons that can extend to form a dining table or chairs that can be extended to make ladders are only a few examples of wondrous multi-purpose furniture.

Furniture brand Otobi has also caught up, providing a few basics, specifically for children. Mainly made of wood particle boards, these include beds with shelving and storage space. Furthermore, there are plenty of innovative shelving solutions available at various home decor outlets. Whether it is to streamline the look of your apartment or to reduce costs, multi-functional furniture can be used to enhance your interior designing skills and make your house look more inviting. Moreover, these are also much easier to handle while shifting homes as they can be folded and are thus less prone to damage.

The furniture you pick can indeed be used to express your personality. May be it is time to think again of a fresh minimalist makeover.
