## Fall makeup tricks 101

Autumn is here and it is time to switch those summer colours for the bolder matte hues. Autumn is all about celebrating earthy colours with a pop of bold berry shades. Start by adding a bit of powder to your shimmery eye shadows for a mattifying effect. Alternatively, switch the classic black kohl for a more vibrant emerald or navy tone. You could opt for a neutral shade of brown for the lip during the day, vamping up your game with bold plum shades in the evening. Finish up with a bit of orange blush to your look and you're good to go!
