

FEMME FABULOUS

# TANJIN TISHA

Tanjin Tisha is a well known model, actress and dancer in the Bangladeshi film industry. She has performed in a number of dramas like 'Moyna Tia', 'Ochena Bondhu', 'Green Card', etc. She was also positively acclaimed by the audience and critics alike for her performance in 'U-turn'.

**SKIN**

Tanjin Tisha doesn't spend much time taking care of her skin, as she hardly gets the time to do so. However, due to the nature of her work, she still needs to follow some basic skincare rituals. After an entire day of work, she comes home and uses the Bioderma Micelle Water. After removing all the makeup, she washes her face with a cleanser and then uses the Body Shop Tea Tree Skin Clearing Lotion to moisturize her skin. She also makes sure to get a deep cleansing facial once a week.

**HAIR**

Because she was previously a dancer, she had to style her hair using a lot of hair sprays and also straighten or curl it accordingly. Therefore, she believes her hair has been under a lot of torture already and thus tries to take care of it properly now. She religiously gets an anti hair fall pack, protein treatment or hair spa once a month. This helps her hair stay lusciously thick and strong, and also smooth and silky at the same time. Tisha also sometimes applies hair oil at home to keep her hair smooth.

**MAKEUP**

Tisha in her personal life tries to stay as makeup-free as possible. However, when she goes out she likes to apply MAC Pressed Powder to build her base makeup and then applies a little blush on her cheeks to give it some color. Although most people in our sub-continent are obsessed with fair skin, Tisha is very proud of her tan skin tone. Therefore, she never tries to make her skin lighter with makeup. Once her

base makeup is complete she draws on her eyebrows to make them a bit dense and applies a light-golden eye shadow to highlight her eyes and then applies some mascara. Finally, she puts on a dark lipstick to create a contrast with the rest of her makeup. Tisha is very loyal to MAC when it comes to her base makeup but unlike most people she isn't a brand freak. She uses whatever she thinks is good and doesn't really go with the hype.

**REGULAR WEAR**

When it comes to regular wear, she usually goes for comfort. She likes to wear a basic pair of jeans with a t-shirt or a salwar kameez for her everyday look. She isn't a big fan of accessorizing and thus tries to stay very minimal. She does wear small studs or a small pendant to go with the look. However, one thing she never misses out on is a watch. Currently, her favorite brand is Rado.

**PARTY WEAR**

For parties, she usually wears whatever she feels like wearing depending on her mood. But one outfit she loves a lot is crop tops with a long skirt. She tries to keep her outfit and makeup simple even in parties, unless the person hosting the party is someone very close to her. If the party is with her friends, she goes with western wear like jeans, top or a gown. If she is going to a wedding, she likes to wear sarees. When it comes to sarees her favorites are net, chiffon and katan.
